

## Ads not allowed on wordpress.com???

Posted by alexreis - 2010/09/04 08:04

---

I am a little confused about this! I am trying to create my free wordpress blogs like Carty told us, but now when I was trying to insert AdSense on my blogs I see that is not possible, and looking in the wordpress policy they say is not allowed to put ads on free wordpress.com only if we buy a self hoster... I am confused about all this!?!?

That's right. You cannot have ads on their blogs. My software can work with WordPress installed on your own domains too! For free way, I would suggest Blogger, else you can buy a domain and install WordPress on them.

Regards,  
Carty..
