

Suggestion: An Undo Button

Posted by lugus1 - 2010/09/07 21:07

Please implement an Undo button so I can recover form my stupid edits.

Thank you

I was breaking my head to implement but it kept screwing things. How about a button that will 'Undo' all the changes and not just the last performed action. Does that help?

Regards,
Carty..

Yes it would so long as it is all the changes on just the current post being edited. Thank you.
