

What does an RSS feed look like

Posted by bertieg - 2010/10/04 13:44

Hi

I am very new to auto blogging software.

I have attempted to find feeds, I think I have them, they look like rssfeeds, However I keep getting an error message in the ABS software. That the link is incorrect. So I must be looking at something incorrectly.

Appreciate any help.

Thanks Roberta

Give us an example RSS Feed URL that says the error.
