Hi Carty

What chance that you could do some tutorials on this software ? have looked and can not find anything  
The video on YT jusy goes to fast and there is no sound , because this is getting better all the time  
maybe some vids showing etc

Cheers sinbad

Hi Sindbad,

As you can see it gets better day by day, I don't want to create a video now and re-do them again tomorrow :)

First of all, I want to focus on developing the software at the moment by adding new features and then move on to the training videos. You can expect me to do them by next month as I have a lot of features planned to be released by then.

Although, with the best of my knowledge, I have designed the software in a way it is very easy to use right out of the box, if you still require some training, I highly recommend Geoff Shaw' program. He has taken a lot of time in creating not just some training videos on how to use the software but also goes in depth and mentions some of the promotion methods with a twist that will actually help you make more money. I must say it is definitely a bargain at 15 bucks. Check it out!

Regards,  
Carty..

Carty

I have this and he does mention your software but does not go in to any training at all!!

"There is actually training with your purchase so I don't need to duplicate that and you can get that here..."(PDF) no video and is the same as yours

The only thing you can do wrong is to fail to take action. "

So I guess I ahve to wait B)

Cheers

Oops, okay don't worry. I will create some training videos that would run for hours, next month :P

Will keep you updated.

Hi John

I can say that you will learn a lot from Geoff Shaw and the training videos he does he shows you not TELL you how to do things, I hope this helps

Hi, I've purchased this training program thru this link but after completion of my purchase and returning to the merchant expecting to find the link to membership site of this program, I found no link to the said program.

Could you help me on this one. My PP email ad is \*\*\* Noted Down\*\*\*

Thanks

Does Geoff Shaw' program show us step by step how to promote our site to get a high ranking in search

---

engine so that we can get many free traffiics to make money? Also does he show us how to create a good auto blogs with minimum maintain with good results?

Currently i have create few blogger sites by using autoblogging software but not really sure how to promote it. So need some reviews on the Geoff Shaw' program before i buy it. Thanks

Dear John,

I have not seen his training yet but I get only positive reviews from all his customers. Not sure if he teaches on how to secure high search ranking but he sure does cover some of the most advanced techniques that should help you make more money with my software.

Hope that helps..

Could someone be kind enough to give more information on what Geoff Shaw's training videos cover?

His sales page only mention "the training is focused on what the software can do for you" but does not state the outline of the various videos and trainings.

I am 'on the fence' and not too sure if I should join or not.

Thanks!

Yes you should get it. You will be very encouraged by what the software can do for you. Geoff teaches you that with it you can be very successful, if you take the necessary action.

Geoff has other blogging training which he eludes to which could help you immensely but I haven't availed myself to it as yet. But it is there if you want it.
