

ABS New Features ?

Hi Carty,

Read in the forum that 'your' software will have some very nice new features in the coming weeks and months ?

Can I ask, will the brand Auto Blog Samurai also carry those upgrades or new features or will it be just for your original software ?

Just wondering as to whether to get my money back on the rebranded software and buy the original from you ?

In a nutshell, will the upgrades and new features be identical across both versions of ABS ?

Regards

Jane
