

grabe bug?

Posted by snoopy866 - 2010/04/12 04:11

When I use the method of full text feed

like <http://www.welpennohilfe.de/welpenblog/?feed=rss2> this one

the ABS grab empty of the post

I found some bug but I do not how the explain because of my poor english.

The software couldn't understand the language probably :) Anyway, have you tried the second method of extraction: Between a known location? It worked perfect for me!

Regards,
Carty..
