

## Delete the same words in every post of the same RS

Posted by snoopy866 - 2010/04/12 08:05

---

When we grab content from the RSS, ABS may be grab some thing we do not need, I have to delete same words in the every post.

Need a function of delete the same words which we do not need in every post of the same RSS .

May be a button just enough

My english is poor.

Yup, I'm thinking about doing that too. Say have a button that will allow you replace text or even replace it with links. But first let me get the WYSIWYG editor built first :)

Regards,  
Carty..
