

## How to use products from german amazon?

Posted by Mudak - 2010/11/16 10:06

---

Hello guys!

Can anyone explain how I can use products from german Amazon.de?

Any idea?

At the moment only .com (US) is supported, I do have plans for adding other countries in future.

Regards,

Carty..

Mudak, bonjour from france...

I'm planning to use both Amazon.fr and Amazon.co.uk and I have some ideas as to how I may incorporate that in the existing ABS framework.

But, I'm not certain as to how you perceive there being a problem. :unsure: Would you like to expand your question.

Regards,

---

Kevin
