hey Carty,

Its been already 4months, So any New Features coming in the Next Version????

If so, When is The Release Date Approximately =)

Review:

I own a Auto Blog and it makes .75 - 3.25 Approximately / day..

I do alot of SEO like Building backlinks to Rank Beter on SERP's

I think If i own 20+ Auto Blogs, i can Easily make more then What Carty has said :)

Definitely i Approve this ABS Tool..

NVM I cant Make any suggestion untill i get my adsense Payout out :) , If i Receive my payout Successfully.. There is no doubt this SEO TOOL is a Kick ass :)

I cannot promise a release date. I constantly develop it and when I think the version is mature enough to be released wider, I announce it. Until then, it is under closed testing only.

Regards,
Carty..
