

## Amazon integration

Posted by hanwoz - 2010/12/10 15:41

---

Hi there, is anyone else having problems adding amazon products to blogs? I have double checked my associate id and all that but the software does not add anything from amazon regardless of keyword...etc.

I would appreciate any help on this.

thanks

Hans

Please check the time on your PC and see if it is right. Then try updating again.

Regards,

Carty..
