

[Help] Delete Imported PLR Articles

Posted by zajacik - 2011/01/03 03:06

I have imported a set of PLR articles but I cannot delete them. I have tried highlighting them and pressing Delete but nothing happens. I was able to delete Feeds this way. Please advise. Ray

Confirm this is a bug. Will fix and update soon. At the moment, you can delete all of the articles (PLR) together by right clicking on the PLR Articles title in the left pane and select "Delete Feed" option.

Regards,
Carty..
