

serious software issue

Posted by sikbru - 2011/04/11 07:43

abs not working properly this morning and adding 1 of my feeds updates to all my other feeds sections
ie. my coffee updates go also into my skincare, etc feed sections (see screenshot)
what gives? :S

I don't see your screenshot. Please try removing the coffee feed and re-add it. Tell me if it goes fine.

Regards,
Carty..
