

Sorry, I must be making a dumb mistake

Posted by kyhawk - 2011/07/20 15:43

I have had this software for sometime and now I have to use again.

I recently started a new blog but I must be making stupid mistake as my post are not showing up in my wp blog.

ook y not u change the step by step(first delet the blog listr from abs) this is for tetsting purpose)

1. open your WP and Create 2 or more Categories
2. And open ABS and create NEW blog and take new ezine article let say limit for 3-5 article(this for testing.)
- 3.AFter taking/ulpload ezine article --try to check each article from article one to article 5each article must have a category for it self..just choose any category...
- 4.and from there u can post again.

lastly if this suucced ,u will see the step by step on how to connect your Wp to ABs..

try it first.

Thanks again for assistance.

I must be making another dumb mistake.

Nothing posts in post box..
