

Demo Version? German Version?

Posted by cabbo - 2010/05/13 18:46

Hey,

first sorry for my english, I'm a German :P

I searched for the demo version of the software but I did not find anything. Could someone give me the link? I would like to test the software with a german blog.

Probably there wont be a german version?

Kind Regards

cabbo

You're welcome B)

Have bought the software yesterday myself, will see how it goes.
